

3 soveværelse Landsted til salg i Montejaque, Málaga

120.000€

For sale – Large double fronted three bedroom traditional village house in a great location 2 minutes from the town square in the historic part of the village

This two storey house is in very good structural condition and offers many possibilities to upgrade into a pretty special property !

The ground floor accommodation consists of a dining room , living room , kitchen and family bathroom. Enclosed internal patio, which is half covered , offering both shade and sunlight.

The upper floor currently has three bedrooms, two terrace and then there is a large attic – which until recently was in fact a spectacular roof terrace – the present owner has put on a roof to create an attic/storage . The most obvious options are to either remove the roof and re instate the roof terrace, or expose half the terrace and create a spectacular living room which would lead onto the roof terrace and make the absolute most of those panoramic views

This house has a lot of versatility and privacy too. A great opportunity to make into your own, come with your designer hat on and be open to the many possibilities !

Open to offers .
