

5 soveværelse Villa til salg i Salinas, Alicante

275.000€

Huge Part Build in Salinas, near Sax. We are proud to offer for sale this huge part built house in Salinas, near to Sax.

The house has been built with fully insulated walls etc and is ready for the new owner to add their final fixings (windows, flooring etc). The house has both types of water (drinking water and land water) and electricity is on site, just requiring connection.

The land is fenced around the house, with some land to the outside of the fence, and there is plenty of space to add a pool. The house does include a 3 stage septic tank, and two fully working bathrooms, so this could be competed as a self-build project from here on.

This is one house that would really benefit from being viewed, as the photos don't really do the house justice.
