Scheduled for completion between June and August 2024, these modern homes offer an exceptional Mediterranean living experience.

Each villa features 3 bedrooms, 2 bathrooms, a guest toilet, and an open-plan kitchen seamlessly connecting to the living and dining areas. The 6.2 x 2.50 meter private pool and 23 m² terrace create an ideal outdoor oasis for relaxation and entertainment.

The villas include several valuable amenities such as air conditioning, 1.5kW photovoltaic panels, furnished bathrooms with screens, a fully equipped kitchen with an extractor fan, an aerothermal boiler, osmosis system, ventilation system, and an A-rated energy certificate.

Additional comforts encompass interior and exterior lighting, electric shutters, private parking, an armored door with an intercom system, and a 6.2 x 2.5-meter swimming pool. The rooftop features three photovoltaic panels and houses the air conditioning motors, emphasizing energy efficiency.

This project harmonizes quality, comfort, and sustainability, offering the epitome of modern Mediterranean living. Secure your place in this thriving community and embrace the Costa Blanca lifestyle. With delivery approaching, now is the time to make this house your new home.

Ciudad Quesada is located on the Costa Blanca South.
