The main finca offers a cosy living room with a fireplace, where you can also accommodate a comfortable dining room. Another open and original fireplace is to be found in a separate kitchen enough space for a small dining table. All three double bedrooms are spacious. But the highlight is the gallery in the living room, which would be a perfect reading corner. In front of the house, we find a cosy terrace and a chill-out area just around the corner. From here you enter the laundry and the fourth bedroom with own entrance.

Through the garden we reach the second small Finca with a very spacious living/dining room with high ceilings, fully equipped kitchen, a bedroom and a bathroom. The garden in front of the house offers a covered bar with chill-out area and a campfire place. Next to the house, we find another special feature: the original, over 100 year old oven. Moreover, the former stables are currently used as storage rooms and there is a yoga deck where you can enjoy the peace and quietness of the north surrounded by nothing but nature. A third house, also with one bed- and one bathroom, is located around the corner at the beginning of the plot.

The property is completely self-sufficient with solar panels. Water will be supplied by the water depots.
