

Jord til salg i Ronda, Málaga

171.000€

A fantastic rectangular plot of app. 12.800 m² in an extremely peaceful and pleasant location in the centre of a charming valley on the side of the sierras and has excellent access from the road between Ronda and Sevilla. This is a much sought after location with some very luxurious villas in the area as well as a charming rural hotel. The plot has water and electricity connected and preliminary enquiries have shown that it is possible to build up to a maximum of 400 sq. M on the plot with 75 sq.m between buildings and a maximum height of 7 m per building. This could be an ideal investment opportunity enabling one to build a home and also other properties which could be rented or sold.

Considering the beautiful and tranquil situation of the plot another idea would be to build a rural retreat with an equestrian centre or a Spa complex or to construct a Senior Citizens residence.
