

## 2 soveværelse Landsted til salg i Formentera del Segura, Alicante

1.600.000€

A great opportunity and almost unique to buy another original house on the very famous island of Formentera.

Originally a farmhouse located on a large plot in the natural surroundings with lake view, quiet and private. An idyllic spot where you can still decide how you want to modernise it.

At the moment it has water but no electricity. However, solar energy can go a long way here too.

Formentera, like Ibiza, has 300 days of minimum yearly sunshine and with the current energy clima, solar panels are welcome and are subsidized.

Formentera is known for its white Caribbean shores, many culinary restaurants and peaceful tranquillity for holidays, where you can do lots of water sports and everything is accessible by bike. Ferry crossing to Ibiza takes just 30 minutes.
