The development is a boutique development of 47 open plan contemporary town homes. Perfect as an investment or second home here on the Costa del Sol, boasting stunning sea views from the solariums of all homes, as well as from the living areas and bedrooms of the majority. The townhouses are built on two levels and upon entering at ground level, neutral tones and an open plan living and dining area greet you. The open plan kitchen comes fully fitted and benefits from a separate utility area. High ceilings and porcelain floors attest to the quality of fixtures and fittings within. The living area is light, bright and airy with floor to ceiling glass doors and an interior skylight that allow natural sun light to flood in. Spacious bedrooms on the first floor come complete with fitted wardrobes and ensuite depending on the type chosen. The master bedroom boasts a walk-in wardrobe and an extensive wrap around terrace with double aspect windows and doors optimizing the beautiful views. Up on the roof terrace you can create your own private sanctuary - a place to relax and unwind in the year-round sunshine. The townhouses come with private parking and select units have a basement area that can be adapted to your needs. Completion end summer 2020.
