The remaining apartments, will sell quickly, so time is of the essence.

Punta Prima is a coastal Mediterranean headland that borders the warm waters of the Mediterranean Sea, and one of the South Costa Blancas more notable communities. Located on the eastern coast of Spain, intersecting the municipalities of Orihuela Costa to the South, and the outskirts of Torrevieja immediately to the North. The Paseo Marítimo promenade wraps behind the beach providing a pedestrian and cycle route to neighbouring beachfront locations. The beach's Southeast-facing aspect guarantees sunshine for the majority of the day. The cliff that traditionally rendered the beach relatively inaccessible has been bypassed by the installation of a lift toward the west end of the beach. Very few beaches in the southeast of Spain can boast such a luxury, and the lift makes it easy for families and persons of limited mobility to reach the golden sands below. Playa de Punta Prima hosts a Chiringuito beach bar, first-aid services, and a lifeguard during the summer season. Visitors will find a wide variety of local shops, bars, and restaurants located in a commercial centre beside the N-332 coast road. The Punta Marina commercial centre opposite sports additional amenities including a Consum supermarket.
