Casa Naranja is found in the heart of Lanjaron with every local amenity virtually on its doorstep. Other town properties have one big downfall which is that they usually do not have any parking however with Casa Naranja parking problems will be a thing of the past. The street level of the property is dedicated to a spacious garage with a motorized door. Below here through a separate access is a very spacious storage room that could easily communicate with the rest of the house should you wish it to. As you follow the stairs up from the garage level you find yourself in the kitchen. This is a lovely light space fitted with a corner chimney. On the top level of the house is a wash area, bathroom, and roof terrace. You can see that Casa Naranja would be a great investment for anyone in need of a studio flat, with outside space and plenty of storage. Casa Naranja is a small house with many big advantages from its location to its parking.
