A magical retreat in the heart of Tenerife's nature for rent

Among the green hills of our beautiful island of Tenerife, a charming cave house emerges—a gem of natural architecture that blends perfectly with its surroundings. Available for rent at only 950 euros per month!

With approximately 40 m² of space, this home offers a cozy and unique environment where peace reigns and time seems to stand still amid the whisper of the wind and the scent of damp earth. The property requires a 2-month deposit, ensuring peace of mind and security for both parties.

The estate includes about 3,200 m² of fenced rustic land, an oasis of vibrant and wild vegetation. Additionally, it features a 6,800 m² pine forest plot, a natural richness that connects with the island's history and Guanche roots. In total, nearly 10,000 m² of land to live, dream, and invest.

Electrical installation is already planned, although this place is enjoyed to the fullest under the sun and the starry skies of the Canary Islands, recognized as a UNESCO World Heritage site. It is ideal for nights of astronomical observation and unforgettable moments.

A 4x4 vehicle is required for access.

The little house is perfectly distributed and equipped:
