

Landsted til salg i Cartama, Málaga

900.000€

This is a 44,000m² finca with several buildings, city water, canal water and electricity.

The building complex of around 800m² currently consists of 5 separate apartments, and so-called play stalls for keeping horses (large OCA license)

The water supply is guaranteed by a city water connection and a sewer water connection. The sewer water is currently being drained into two large ponds that have been created on the property.

The access road is in good condition and can be used with a truck without any problems, even if the last approx. 1.5km are compacted dirt road.

An property with a lot of construction possibilities and almost ideal for horse keeping and horse breeding
