Just a few seconds from the beach this villa offers direct access the crystal clear waters of this charming coastal town, and the bay of Alcudia. The stone façade adds character and authenticity to the property. Spread across three different levels, the villa boasts a generous 388 m² of living space. The layout of the house is as follows: On the ground floor: There is a large garage of about 163 m² with two entrances, which is currently used as a gym. Also on this floor, there is a bedroom, a bathroom with shower which are not included in the ETV licence, and a laundry room. There is a possibility to convert this floor into two flats, or expand the gym to include a spa and sauna. This floor has five bedrooms, two bathrooms, one of them en suite, and a guest toilet. Each apartment has a fully fitted kitchen one of them with a large dining room. Both apartments also have balconies with sea views. Elevator: There is provision planning for a small indoor elevator which would increase the client base for the property to include those with limited mobility, and multi-generational family groups. The villa has had a ETV licence since 2017 and though the present owners would like to expand the potential on offer as they've enjoyed the company of their regular summer visitors.
