Check our website with more than 11,000 properties in Costa Blanca, Costa Cálida, Granada and Costa del sol.

This property is partially a cave house, which provides a pleasant and constant temperature throughout the year. It features two indoor barbecue areas, a garage, and a cozy garden.

The Plot

The property is accessed through a gate along an asphalt road. There is plenty of space to sit in both sun and shade, and the views of the surrounding mountains and pine trees in the garden are always green. There is ample private parking on the plot.

The House

The property has two entrances. Through the first entrance, you step into the spacious living room with a sitting and dining area. The fireplace provides enough warmth for the entire house during the colder months, and above the fireplace you'll find a traditional bread oven.

From the living room, there is access to two bedrooms on the terrace side. These rooms have windows and built-in wall storage. There are two additional bedrooms located in the cave section of the house. The living room also includes built-in wardrobes.

From the living room you reach the kitchen, which also has its own entrance from the terrace in front of the house. Adjacent to the kitchen is a pantry. Finally, there is a bathroom with a window.
