

5 soveværelse Villa til salg i Calvario (Javea/Xabia), Alicante

799.000€

Located in the prestigious area of Balcón al Mar in Jávea, this villa stands out not only for its open views of Montgó and its tranquil surroundings but also for a distinguishing feature: it consists of two independent and joined plots, which multiplies its value. In total, the property adds up to approximately 1,700 m² of land, distributed across a plot of 870 m² where the pool and leisure areas are located, and another of 830 m² where the house is built. This means that the buyer acquires two properties in one, with ample possibilities for expansion, new construction, or future investment. The main house offers 5 bedrooms and 3 bathrooms, with spacious and bright areas, a living room with a fireplace, a fully equipped kitchen, and various southwest-facing terraces that ensure natural light throughout the day. Two of the bedrooms have independent access, ideal for guests or generating rental income. The layout allows for comfort both as a primary residence and as a high-end second home on the Costa Blanca.

Outside, the leisure plot includes a very sunny private pool all year round, low-maintenance Mediterranean gardens, and relaxation areas, while the second plot offers additional privacy. This configuration is unusual in the area and adds a key strategic value: the possibility of selling one plot in the future, building a second home, or simply enjoying a spacious and exclusive estate. All of this is less than 10 minutes from coves, restaurants, and services.

Summary with Bullet Points Premium location in Balcón al Mar, Jávea Villa with 5 bedrooms and 3 bathrooms with southwest orientation 270° open views of the mountains and Montgó, and a peaceful natural setting. Two independent joined plots (870 m² + 830 m²) Independent plot with private pool and leisure area The buyer acquires two properties for the same price Expansion, investment, and/or partial resale potential Garage, parking, and spacious outdoor terraces Market Data and Strategic Value Properties with land over 1,500 m² in Jávea represent less than 10% of the available stock. Homes with the possibility of segregation or second construction can increase their future value by between 15% and 25% depending on urban development trends. The premium market in Jávea maintains solid demand, especially for villas with pools and privacy. Key Conclusions It is not just a villa; it is a double real estate opportunity.
