

2 soveværelse Lejlighed til salg i Mijas Costa, Málaga

357.500€

An exclusive boutique development
Only the lucky few will secure an apartment at DELMAR II.

This is a small residential complex, consisting of a singular block with just 24 homes in total.

Set in tranquil gardens, its low-density design will offer residents the ultimate comfort – facilitating an incredibly peaceful atmosphere and allowing residents to relax in privacy.

A selection of ground-floor, first and second-floor apartments and penthouse suites will be available. All of which will come with at least one parking space, storage and either a private garden or spacious terrace. But due to their 'limited edition' nature – and the high demand for apartments in Mijas Costa – if you have a preference, the key will be to act fast.

This 5* gated development certainly won't disappoint.

All communal areas at DELMAR II are designed for leisure in a quiet environment. A luxury pool will sit at the heart of stunning manicured gardens, whilst several landscaped areas and chill-out zones will provide the perfect place for residents to unwind and enjoy their free time.

Ideal for relaxing days, sunbathing by the pool and family afternoons enjoying the superb climate.
