Organic Higuerón is an exclusive development of 25 contemporary design homes where architecture, sustainability and well-being come together to create a unique lifestyle on the Costa del Sol.

Each house has been designed to offer maximum comfort, with large spaces, large windows and a careful orientation that enhances natural light. The qualities stand out for their high level: large-format porcelain floors, fully equipped kitchens, air conditioning with underfloor heating and aerothermal system, in addition to home automation technology for an intelligent and efficient home.

To this are added complete common areas designed to raise your quality of life, with equipped gym, outdoor pool, solarium and multipurpose spaces to work or disconnect.

The project has energy certification A, guaranteeing efficiency, sustainability and savings, in a privileged environment that combines nature, privacy and proximity to all services.

Organic Higuerón is not just a place to live, it is a concept designed for those looking for exclusivity, design and well-being in every detail.
