

Byhus til salg i Trujillo, Cáceres

182.500€

A historic town house built in 1770 in the beautiful old town of Trujillo. Full of original character throughout, including exposed portions of original frescos in some of the rooms. Structurally sound with a new roof, approx 400 sq m of living space spread over two floors, it needs internal modernisation and some reorganising. This is a great opportunity to restore an important building to its original beauty, all at a very sensible price. Would be perfect as a B&B for which grants could be available. * price reduced by 50,000 EUROS *
