

Landsted til salg i La Codosera, Badajoz
109.950€

A large (120 sq m) stone house needing internal finishing set in 71,000 sq m (about 17½ acres) of land with excellent access about 1km outside the market town of La Codosera. The shell of the house is complete, it just needs internal walls, plumbing, electricity and fitting out. There is a loft of 120 sq m.

A local builder has given me an estimate of 55 - 70,00 euros to complete the interior to your own requirements, install a fully functioning solar power system, a water connection and an ecological sewage disposal system.

The property has about 120 olive trees and the land is flat so would be ideal as a country home for someone with horses or as a camping or motor-home park. * Price reduced by 25,000 euros *
