

Byhus til salg i San Vicente de Alcantara, Badajoz

99.950€

This 245 sq m 3/4 bedroom town house is set back from the road on the edge of the market town of San Vicente de Alcántara. Ripe for renovation, this would make an ideal family home and is within easy walking distance of the town facilities. The house has two floors which can be adjusted to suit your needs. Although there is no garden there is an approx. 30 metre in length terrace at the front of the house. With some careful thought some other outside space may be able to be incorporated into the house. The house may need a new roof, and modernisation with some building work, so you may need 40.000€ to complete this project depending on the standard of work and of course your personal taste.
