Description:

The farm is located in two municipalities: El Zancudo (367.02 hectares) belonging to Almadén de Plata (Seville). El Aguila and Cuarton (526.20 hectares) belonging to Santa Olalla del Cala (Hula). In Zancudo we can find: Pig farm: -Save 0 mountain bait. •Installations for feeding pigs. Cattle farm: - Operation for 1 cattle divided into 4 fences by means of cattle netting, Water availability each of them through large capacity swamps) drinking troughs with clean water. These fences are also used for fattening pigs. in mountaineering - Large capacity livestock buildings for the storage of animal feed and fodder. Management pens1 feeder cattle, consisting of pens with iron beams with feeders for fattening calves. -Sleeve for sanitary work, scale for all kinds of livestock and docks burden. The farm has electric, roads conditioned in their entirety and fenced both perimeter and internal by a cattle fence very good condition conservation. In the Aguila Cuarton we can find: Sheep farm with sheds for cattle handling 1 the storage of fodder and animal feed. Currently, the register of sheep cattle is registered in Ecological breeding for which a subsidy is received. In this area, I also found a closing with an extension of 145 hectares dedicated to organic crops for which it is also receive a grant.

There are large capacity tanks, as well as wells spread throughout the farm. This area has reforested about 300 hectares of alseque, with a density of 25 years, so that in the future there will be income from cork removal
