699.000€

Natural stone, wood, and the breathtaking vistas of the Sierra Nevada mountains combine to make this apartment a perfect Scandinavian escape, thoughtfully crafted to create a warm and welcoming atmosphere during the chilly seasons. Every detail caters to comfort: from the drying cabinet in the entryway that gently warms coats and boots, to the ethanol fireplace, plush faux-fur blankets, a custom sauna for post-adventure relaxation, a bathtub offering mountain views, towel warmers in every bathroom, radiator heating to ensure coziness, along with candles and woven rugs that add to the charm. This top-floor apartment on the fourth level is accessed via an elevator. Stepping inside, you are welcomed by underfloor heating and a striking natural stone feature wall. A hallway guides you into the main living area, where a bespoke open-plan kitchen equipped with Siemens appliances seamlessly merges with the living room, highlighted by an ethanol fireplace. A central island with a cooktop and bar seating provides the ideal setting for gatherings. The centerpiece of this space is undoubtedly the expansive panoramic windows that present magnificent views of the surrounding scenery. The apartment includes two scenic bedrooms, two full bathrooms—one featuring a sauna—a guest toilet, and a master bedroom with a bathtub, en-suite bathroom, and impressive panoramic windows. Conveniently situated just steps from the newly refurbished El Lodge Hotel and ski lift access, the property also offers a private garage for added ease.
