

3 Cuarto Adosado en venta en Pinoso, Alicante

68.000€

This property is like a TARDIS! Nestled on a quiet street, the living space is arranged on the upper floor with a large master bedroom, a double and single bedroom. Big reception area and large airy kitchen with open fireplace and a small upstairs outdoor area.

Downstairs the room accessed by a separate door spans around 30m in length and has been used as storage space and workshop but easily lends itself to a workshop for those bike/car enthusiasts... the existing door can be removed as the original garage door is in situ. But alternatively would be a huge living space that could be converted to reunite the house to its original layout. Beyond this there is a kitchen area with large fireplace and a small outdoor area.
