The cave house is complemented by surrounding cave accommodations for guests, making it a rare, multi-dimensional property with an immersive, otherworldly charm. The first floor boasts contemporary, unique cave accommodations that blend seamlessly with the historic character of the original cave structures, offering a striking contrast in design.

Covering a sprawling 500 square meters of caved-out interior space across three levels. Situated on 2.5 acres of land, the property includes 60 olive trees, providing a serene and natural landscape. The extension's glazed floor sections give guests incredible views, making it the perfect setting for any occasion.

In the unlikely event of bad weather, any events can be easily relocated to the ground-level "Grande Cuevas," ensuring that your celebration continues without interruption. Whether hosting a wedding or a commercial event, the incredible contrast between the original cave structures and the modern extension will leave a lasting impression.
