

Terrenos en venta en Herguijuela, Cáceres

63.500€

Almost 2 hectares of land (about 4.5 acres) of land with good access and stunning views from the hills outside the village of Herguijuela, about 12 - 15 minutes from Trujillo. There are about 400 olive trees and although you will need to dig a well and install an ecological septic tank - neither of which will be a problem - this would be a great location to build your dream house. The land is already registered as urbanistic so there will be no problem getting planning permission.
