The area

Mijas Costa is the coastal area of Mijas Municipality, stretching from Las Lagunas on the outskirts of Fuengirola to Calahonda. In between is La Cala de Mijas. Within the last 10 years La Cala has grown dramatically from its origins as a quaint white painted fishing village. It has retained much of its original character with its thriving and bustling atmosphere with a wide variety of shops and restaurants, many still providing the traditional cuisine at very realistic prices.

Mijas Costa is also home to several golf courses, with the closest situated in El Chaparral
