

3 chambre Maison de Ville à vendre dans Ciudad Quesada, Alicante

135.000€

This is a very interesting property indeed. In Conjunto Los Dracos, this 3 bedroom 2 bathroom townhouse is part of a community which has, arguably, the most expansive views in Ciudad Quesada. Moreover, it's also probably the quaintest place in the area. The property is set over two floors with separate kitchen, living/dining area and large bathroom on the ground floor. There is a closed balcony off the living area with views which are quite something to behold. Upstairs there are three bedrooms and another large bathroom. This property is in excellent condition and represents fantastic value for money. It's set in a gorgeous little street which somehow feels like it's not part of Quesada but it most definitely is. In relatively close proximity to the centre of Quesada, there are also bars, restaurants and a supermarket close by as well as the Rojales Aquapark just a 5 minute drive away. The beach at Guardamar del Segura is 10 minutes away by car, so really, there's everything one could need within easy distance.

This is a lovely property in a lovely area. It really has to be seen to be appreciated, so call us now for a viewing.
