Villaricos is a simple fishing village, perched precariously between the Sierra Almagrera and the sea, flanked by the Almanzora River. Dating from Neolithic times, Villaricos was once a great Phoenician port. Forgotten by history for thousands of years, it resurfaced as a silver mining boom town in the 19th century before finally becoming the pleasant fishing village of today, with a special identity all of it's own. Life has a very traditional rhythm. Every weekend its people meet in the small old village square where, each Sunday, a colourful market thrives.
