Cueva Caroline in Huéscar

Cueva Caroline is a beautiful cave property situated on the edge of the small town of Huéscar on the Altiplano de Granada. The property has ample outside space with a large front patio, a pergola and a large roof terrace. Inside, the cave house has an open plan living room/dining room/kitchen, a snug, 4 bedrooms, 2 bathrooms and a separate utility room. This cave house is built throughout with exceptionally high quality materials including ceiling insulation.

There are stunning views of farmland across the track and of the Sierra de La Sagra mountains. At night, the church Iglesia de Santa María la Mayor up on the hill is beautifully lit up, offering a peaceful and striking skyline.

The front door takes you into the spacious, bright open plan living room, dining room and kitchen. The living room has an extra large pellet burner and built-in shelves with a desk. This open plan space has windows facing in three directions so there is lots of light.

The bedrooms and snug are beautifully finished in the traditional cavy style. The bathrooms have a clean, modern, black & white tile pattern.

The bedrooms, bathroom and snug are built into the mountain in two sections:

Straight back from the living room is a small hallway leading to a bathroom and a bedroom that has a wardrobe area as you enter.
