

7 slaapkamer Gezinswoning Te koop in Chinorlet, Alicante

69.995€

First of all, let's get down to the basics, whilst this is a really fantastic opportunity if you haven't got at least another 70,000€ or you can get away with considerably less if you have building experience. This house has got so much character and it has a brand new roof that cost close to 40,000€, a very rare thing in properties for reform so all the work can be done whilst keeping dry and no way of damp affecting the work. Nearly all the reform work is interior but there is a spacious piece of land that will easily fit a swimming pool that would have total privacy and still room for a patio area for outdoor dining. It's an exciting project without a doubt. The building is enormous and there is another part to it that needs significant work to make anything of it but it is there and has not had an effect on the selling price so it's a gift. Ideally, this would be a 6 or 7 Bed Property although it has scope for more and it is located in the countryside although it qualifies as a townhouse, the views are spectacular. With over 300m² of build and the small within the U shape of the property, the potential is incredible. The access to the property is perfect and it is only a few minutes walk into the village of Chinorlet where there are two bar/restaurants one of which is renowned. There is a Medical Centre and a Mini-Market but the towns of Monovar and Pinoso are only a ten-minute drive away where there are several options for supermarkets etc.
