

5 slaapkamer Villa Te koop in Elda, Alicante

450.000€

Set within more than 13,000 m² of enclosed land, this remarkable villa enjoys an elevated position with wide-ranging views across the surrounding countryside and uninterrupted sightlines to Sax Castle. While immersed in a rural setting, the property is officially located within the Elda municipality.

Entry to the estate is through electric gates, opening onto a private driveway and double garage. The grounds have been designed for outdoor enjoyment, offering multiple areas to relax and entertain, including a covered dining space, a fully equipped summer kitchen and bar, and a dedicated BBQ area with an Indian tandoor. The land also incorporates a herb garden and established fruit trees such as fig and apple.

The villa stands out architecturally, with its distinctive twin towers connected by an upper-level balcony. From this elevated position, the rear bedrooms overlook the sun-filled pool area and surrounding terraces, creating a strong connection between the house and its outdoor spaces.

The main entrance, facing south, leads into a spacious reception area currently used as a dining room. Large windows allow light to flow through the interior throughout the day, while framing views of the landscape beyond. On this level, the property also offers a well-proportioned kitchen, a comfortable living room centred around a double-sided fireplace, a double bedroom and a bathroom.

The first floor is arranged around a central gallery, giving access to four bedrooms and two bathrooms, with balconies on both sides of the house. Two of the bedrooms are located within the towers; one features an en-suite bathroom, while the other shares a Jack-and-Jill bathroom.
