A residential complex that provides a way of experiencing the Mediterranean. It has an exceptional situation on Avenida de América. This Avenue is the axis of the great leisure area between Sierra Cortina and the Bay of Benidorm. It is the most privileged and unique cornice on the Costa Blanca. The project has an exceptional common area: swimming pools, paddle tennis courts, Social Beach Club, gym, changing rooms, etc...

All this structured on different levels with impressive natural stone walls. The dimension of these common entertainment areas can be understood as it is a plot of almost 50,000 m². In this context, the project combines views of the sea, light and a special design based on straight lines, bright colored finishes, and large windows. The design adds other differentiated creative nuances such as the level game based on impressive natural stone walls.
