

4 soverom Rekkehus til salgs i Macisvenda, Murcia

44.950€

4 Bed Townhouse with Garden. Located close to the centre of the Village of Macisvenda, this townhouse currently comprises of a large entrance hall, with the first two bedrooms on either side and both have windows looking out onto the street.

Then we have a large open living area, with high ceilings and a large open Fireplace, and stairs that take us to the first floor, where we have a large open room leading to another bedroom. The large room will need to have the fourth bedroom created here.

Back downstairs and we have the family bathroom, and then the kitchen area which has a sink, and an open fireplace for cooking.

There is also a large storage room leading off from here, this part has a partially collapsed roof and is the main repair needed to the property. The room could be used to create a further bedroom, or potentially could be opened up to make a large summer kitchen leading out to the garden area, or even be taken away fully to create a larger garden area so there would be space for a small swimming pool.

The garden has a gate to the side, and as the house sits on a corner plot there is parking right next to the house at all times.

The property requires a lot of love and attention, and could provide a good sized 4/5 bedroom house with private garden area, and is situated in a great position in a lively small village, where you will find everything you need for daily life, and a few cafes and restaurants to sit and enjoy the Spanish lifestyle.
