

6 soverom Villa til salgs i Alcaucin, Málaga

330.000€

Casa Ernesto is a rare opportunity to take on a large established structure which currently has a complete 2 bed, 2 bath apartment with front covered terrace and patio leading up to a vast, open roof terrace with 360 views. Plus there is a further 250m² of usable living space including a large underbuild which can also be utilised apart garage space, part living. Whilst being sold individually, Casa Ernesto is directly next door to a very successful Hotel which is on the market and could very much go hand in hand as an extension of the accommodation or staff quarters to Hotel Cortijo de Salia. Many possibilities with this rare opportunity and there is such a large space to reform its an interesting project for anyone wanting to create their own design and finish.
