

3 soverom Leilighet til salgs i Estepona, Málaga

3.360.000€

On the shores of the Mediterranean, surrounded by nature, and with direct access to the beach, The Sapphire stands tall. It is a truly exclusive residential complex due to its limited number of homes, stunning views of the Mediterranean Sea, and its privileged location on the beachfront.

The project is led by Darya Homes, a real estate developer with extensive experience in developing high-quality homes with high standards of quality and design. The company's portfolio includes properties in Madrid, Barcelona, and the Costa del Sol, including notable projects like Darya Estepona and the iconic Alcalá 141 in Madrid.

The Sapphire is more than just a building; it is the epitome of Estepona Bay. Home to 15 magnificent beachfront residences, the fluid layout of the project combines architecture, design, and the natural environment. The project's layout aims to emulate the undulating movement of the sea. Here, the soothing sound of the ocean will resonate and set the rhythm of daily life for each resident.

Designed and built with the finest qualities, top-notch finishes, and state-of-the-art technology, the last available homes offer an abundance of living space, large windows that open to majestic wraparound terraces, and infinity pools—the purest definition of luxury.

The Sapphire is located in the most exclusive area of Estepona, just a few minutes' walk from the marina, close to the city center, and with exceptional connections to Puerto Banús, Marbella, and the airports of Malaga and Gibraltar.
