2.395.000€

This development shares the same fenced perimeter, with cypress trees adding a natural border between villas. However each has its own private entrance and driveway, with underground parking for two cars. Each villa is unique; spanning between 250-270 m² on a split-level formation, a huge basement with over 1200 m² of grounds per home. This includes shaded verandas, gardens and a private swimming pool as a perfect, personal oasis. Every villa offer you at least 2 bedrooms on the main level. The design principle for the Villas is being at one with nature, complementing the needs of the changing seasons while making the most of the Marbella's micro-climate. Every outlook from the living areas and the principal bedrooms has been thoughtfully designed to maximise the best views, over the landscaped grounds or gazing across the iconic La Concha mountain and the Mediterranean sea.
