In the heart of Vera Playa, within the prestigious Pueblo Salinas development, an exceptional residential complex is being built next to the Mediterranean. Its privileged location and spectacular sea views make it the perfect place to enjoy all year round.

The architecture of the development combines contemporary design and harmony with the surroundings. The complex has been carefully oriented to take advantage of natural light and open the homes to the outside. The ground floors offer spacious private terraces, while the upper floors have a solarium with a summer kitchen and pergola. You can choose your dream home from the floor you want, the number of bedrooms or even the square metres, among other features.

The homes have fully equipped kitchens, including appliances, and a smart layout that maximises space and light. The elegant interior design includes preinstallation of ducted air conditioning, as well as parking spaces, storage rooms and preinstallation for electric charging points.

The residential complex has two outdoor swimming pools, a heated pool and landscaped areas. All this within a gated community, surrounded by nature and just a few minutes from the best beaches in Almería.
