1.749.000€

Energy A++ Luxury Villa – Built to the Highest Standards with Styro Stone
Unmatched Comfort. Ultra-Efficient Living. Exceptional Quality.

We proudly present this stunning Energy A++ luxury villa, currently under construction, located in the prestigious La Guardia Park in Jávea — an exclusive and tranquil area close to the award-winning beaches of Portitxol and Granadella. Designed for those who value innovation, comfort, and sustainability, this villa is built using Styro Stone ICF (Insulated Concrete Formwork), a cutting-edge construction system that ensures outstanding thermal insulation, airtightness, and structural integrity. (Learn more at www.styrostone.com).

Thanks to this advanced building method and the integration of state-of-the-art technologies, the villa is classified as near-zero energy consumption, delivering both exceptional indoor comfort and significantly reduced monthly energy costs.

Property Highlights:
