

4 soverom Villa til salgs i Denia, Alicante

1.700.000€

New Construction with completion date of 2025 in Las Rotas, Denia - between Las Rotas beach and the Montgó. 360 degrees panoramic views to the coastline and surrounding mountains of Denia. This property is located in a natural environment with a relationship with its landscape with the materials used for construction. A housing concept that revolves around modernity but maintaining a bond with the Mediterranean landscape. Through simplicity and natural elements. The property will be built over 2 floors at the foot of the Montgó massif and overlooking the Mediterranean Sea on a plot of 1356 m². The two floors of the property will articulate and differentiate the day areas and more public areas from the night areas. Each bedroom guarantees privacy and comfort all with an outdoor space. Outside, a shaded terrace is proposed around the perimeter of the house to open the interior to the garden of the house. Pool, barbecue and chill-out areas are also proposed to maximize the outdoor experience. A day area closely related to the garden as an extension of the house itself and has a space without borders between the different rooms of the house to be able to enjoy the outdoor space from all rooms. Time to get involved with the project and build your dream home in a location that will never change stunning scenery and the mediterranean sea at your doorstep.
