Layout and interior spaces

With a built area of 144 m², this charming home offers a functional and bright layout. The house features three spacious bedrooms (one of which has been converted into a garage, but is easily convertible), all with abundant natural light, and two carefully finished bathrooms, as well as a guest toilet for added convenience.

The open-plan kitchen, fully equipped with appliances, flows seamlessly into the living-dining room, creating an open and welcoming space, ideal for enjoying with family or friends. The living room features a cozy wood-burning stove, perfect for winter evenings. The house also has central heating (propane) and air conditioning for optimal comfort year-round. One of the most special features of this property is the underfloor heating throughout and the use of a unique water system connected to the gas central heating system.

The house is fully furnished and equipped, move-in ready, and features built-in wardrobes for extra storage. The master bedroom boasts a fantastic walk-in closet and an en-suite bathroom. A real eye-catcher in this bathroom is the jacuzzi with shower. The walk-in closet can even be converted into an additional small bedroom if desired.

The house has 18 electric solar panels (On-Grid) for the house and another 6 panels for the solar boiler (house hot water, swimming pool heating).
