

3 soverom Leilighet til salgs i Estepona, Málaga

5.000.000€

This complex of 5 detached villas, was born of a dream to create organic, one-of-a-kind residences. It has all the luxury and details of a villa, but with the advantages of being right on the seafront. It was conceived as a trapezoidal building that opens towards the sea. The spaces and rooms look towards the Mediterranean through large picture windows. The narrowest side of the building faces the land, in search for connection with the interior. The choice of each detail of the architecture and design follows the Ikkil Bay philosophy. Wood, marble, and glass are the predominant materials and are of the highest quality. They spring from the apartments' interiors to completely encase the building's exterior. Glass walls, marble wood. From the beautiful lobby lounge to the manicured terrace retreats and all the place in between, every detail has been meticulously curated to create an expression of sophisticated style. Luxury for those who know how to enjoy the small details.
