Living where history meets comfort

An exceptional residential project in the historic center of Málaga, directly opposite the cathedral and surrounded by the city's most iconic streets. This is not a classic new construction, but a carefully renovated building with distinct character and high architectural value.

The original facades have been fully restored with respect for the original design, allowing Císter to retain its authentic appearance. Behind these historic facades are contemporary living comforts, designed for those who value quality, location and experience.

Here you are not just living in Málaga. You are part of its history.

A limited and exclusive offer

Only 9 fully renovated and furnished apartments, with 1, 2 or 3 bedrooms. Each apartment was designed according to the latest building and living trends, with attention to light, space and finishes.

The homes are move-in ready and ideal as second homes, urban pied-à-terre or strategic investment. Thanks to clever layouts, high ceilings and large windows, the apartments enjoy plenty of natural light and a pleasant living experience in the heart of the city.

A rare USP: tourist rental license included

What really sets Císter apart from other projects in Málaga center is a unique and today extremely scarce advantage.
