Renovated Townhouse in the Center of Pinoso

A charming townhouse for sale located in the very center of Pinoso. The property offers approximately 105 m² of living space and was fully renovated in 2021, combining the traditional character of village houses with modern improvements that provide comfort and efficiency.

The house is distributed over two floors and is sold fully furnished, ready to move in. During the renovation, many structural and functional elements of the property were renewed, including the roof, installations, windows, and interior finishes.

The property features a pellet heating system with ducts distributing heat throughout the entire house, both on the ground floor and the upper floor, ensuring a comfortable temperature in every room.

The house also benefits from new double-glazed windows, providing good thermal and acoustic insulation. In addition, all rooms have electrical sockets and TV antenna connections, allowing easy installation of electronic devices
