Bright seafront apartment with balcony and three bedrooms In a coastal and sun-drenched neighborhood where the sea breeze finds its way between the buildings, a spacious and well-planned apartment awaits you, offering both light, space and a calm atmosphere. Here you live on the second floor of a building with an elevator, just a short walk from the beach - a place where the Mediterranean becomes a natural part of everyday life.

The apartment has a built area of 106 square meters and a usable living area of 80 square meters, which provides generous rooms and a harmonious feeling of openness. The pleasant floor plan accommodates three bedrooms and two bathrooms, perfect for those who want space for family, guests or a home office.

All bedrooms have built-in wardrobes, which creates order and provides plenty of storage without stealing space from the floor space.

The spacious living room has a natural place for both a dining group and a lounge area, and from the balcony you get a beautiful view of the sea - a place to start the day with the morning sun or end it with the evening breeze that sneaks in from the coast.

The home is bright throughout with large windows and an exterior location that lets in all hours of natural light. It is located on the second floor, easily accessible thanks to an elevator, which makes everyday life comfortable regardless of your life situation.

Here you live close to the beach, close to services and close to that warm, relaxing atmosphere that coastal life brings. Restaurants, cafes, small shops and walking paths are within easy reach, and the area offers a wonderful balance
