699.000€

Located in a prestigious coastal neighborhood, this newly built apartment embraces the best of both worlds: the tranquility and freshness of an unspoiled eucalyptus forest and the priceless panoramic view of the Mediterranean Sea from a spacious, sunny terrace. Every detail of this project is designed for comfort, privacy, and high-quality living. The apartment features two spacious bedrooms and two modern bathrooms, carefully finished with quality materials and a contemporary design. The open living and dining area flowing to the terrace creates a direct connection to the outside environment, maximizing the spectacular sea views.

Living in this complex means a high level of service: 24-hour concierge, multiple swimming pools, carefully designed relaxation areas, and exclusive private infrastructure for residents. These amenities ensure convenience, safety, and a resort-like living experience, without compromising on privacy.

The location is simply unique: the complex is situated in the middle of a protected natural zone where new developments are not allowed — a rare and enduring scarcity. This makes it not only a comfortable home but also a smart, exclusive investment in a limited resource.

In summary: not just an ordinary seaside home, but a luxurious and peaceful retreat with top-notch facilities and an exceptional location. Interested? We would be happy to arrange a private visit so you can experience the atmosphere and the view for yourself. Contact us to schedule a viewing.
