

Land til salgs i Jarandilla, Cáceres

130.000€

1-hectare (2.5 acre) plot in a stunning location 3km from the nearest village, this is an excellent opportunity for a very special renovation project. Situated between Jarandilla and Guijo de Santa Barbara the property consists of a large stone barn (currently still in use for cattle), on a gently sloping plot surrounded by established trees with magnificent views of the mountains. A river (la garganta Jaranda) runs by the bottom of the property. Access is by a stone and earth track accessible by car but a 4x4 would be advisable. The barn is 500m2 and lends itself to conversion to a large country home or rural business.
