

5 bedroom Country House for sale in Los Villena, Alicante

79,500€

Finca which has been spilt into various, smaller properties. The main house when finished would be 4/5 bedrooms, 2/3 bathrooms and just over 200 m² on 2 floors. The downstairs would consist of a large open planned living/dining room with American-style kitchen. There is also a large family bathroom with shower and large bedroom/study. The upstairs area would consist of a further 4 double bedrooms and 2 bathrooms, one of which would be the ensuite for the master bedroom. All the major structure of the main house has been renewed including the roof. There is a nice 80m² outside space to the rear of the house. This area would be perfect for a swimming pool and entertaining area. To the front of the house there is a large, roofed area that would take off to give more light to the property. There would be space for a double garage and there is also a large workshop area that could be converted into more living space or a guest suite for family.

All the planning and project are in place.
