The connection with the natural.

The large windows on the ground floor, that extends from the floor to the ceiling, confuses you about where you are. Thus, you do not know if you are inside or outside, if you are in the living room or on the terrace. It is a feeling of total continuity. In every space you can feel the connection with the natural environment, the garden, the terrace, the landscape and at the same time with the luminous valley that watches you and can also be looked at. The design is inspired by the transparent waters of a crystalline river and makes you appreciate the beauty and the connection with the natural environment in every moment. Its cubic and modular shape provides large open spaces that let us lead a comfortable and relaxed life.
