4 bedroom Townhouse for sale in Alcaudete, Jaén

65,000€

Located in the popular town of Alcaudete in the Jaen province of Andalucia. Larger than it looks this town house in a nice residential part of town has surprising outdoor space. Enter the front door into a living room, off to the left is another room and through it is an Andalusian tiled room which could be a dining room then go into the kitchen and out into the patio with garage access. The patio with grapevine has two storey outbuildings all around it including a shower room. These could make extra living space or more patio area. Upstairs on the right is a bedroom with full en suite and to the left another good sized bedroom and a smaller room which could make a second en suite. A surprising, characterful house which is ready to live in and would make a great permanent or holiday home.
