

## 4 bedroom Townhouse for sale in Villardompardo, Jaén

99,500€

This was the 'Big' house in town with a grand facade and some beautiful original features such as the tiled entrance and staircase. At present the two upper floors are empty shells to be transformed as required, making 3, 4 or maybe 5 bedrooms with en suites. The downstairs has a front parlour, a sitting room, a 'kitchen' and a hallway from which the ornate staircase rises. Overlooking the main plaza this would make a gorgeous B&B something the town does not have. An original fireplace and pantry with ornate wrought iron grill lead out to a great spacious plot with access onto the street at the back. There could be a pool, garden or patio and parking area here within the generous 380m2 town plot.

For someone with vision this is a great sound property with a new roof that needs life breathed into it and to become grand once again.
