A little more about Finestrat ... Finestrat and the seaside resort of Cala Finestrat are both located in the Marina Baixa region of the Costa Blanca, close to neighboring Benidorm and approximately 40 kilometers from Alicante city and its international airport. The village is located on the mountainside of Puig Campana and offers beautiful views of the mountains and the coast and the Mediterranean. The charming village has a typically Moorish atmosphere, with colorfully painted houses and narrow cobbled streets. Cala Finestrat, on the other hand, has become increasingly popular and its development has made it almost an extension of Benidorm itself. Finestrat is the ideal place for anyone looking for a property close to excellent golf courses, sports centers, spas, family attractions and transport services with a typical Mediterranean climate. With cool sea breezes in summer and protection from the surrounding mountains from the cold north winds in winter. The area has an average of almost 3000 hours of sunshine per year and the average temperature is around 20 degrees. The area has been frequented for many years.
